

## Invest in Italy: new entry visa, investor residency permit and tax break for investors and patrons

Live web conference on  
[www.investorvisa.it](http://www.investorvisa.it)

October 4, 2018 from 9:30 am to 11:30 am Houston Time

Jusweb srl, the publishing house of *Investor Visa Italy*, has organized this web conference under the patronage of the Italy-America Chamber of Commerce of Texas for American entrepreneurs, professionals, patrons, and businessmen. The topic the conference is a new legislation which is already in effect that provides financial benefits and privileges for non-EU investors.

The web conference will give detailed information on how to obtain entry-visas and residence permits for “investors”. There will be some important breaking news on tax break options for those who opt for permanent fiscal residency within Italian borders. One of the most interesting advantages is that the fixed income tax one-off total amount for one year is only one hundred thousand Euro on personal income from abroad.

Jusweb conferences are conducted with a practical debriefing approach. Participants can ask questions to the speakers and receive answers via online chat.

Free registration is required to attend the conference.
